THE CLEVER LIGHTS

REAXLIGHTS

“An incredible fitness tool designed to monitor and improve sports performance and reaction time”

Reax Lights is an innovative lights system which boasts the greatest versatility and ease of use. Reax Lights is an incredible fitness tool designed to train and stabilize the athlete's neuromuscular response as well as improve the speed of such motor actions to be performed in the shortest possible time. Unlike other products already on the market, Reax Lights was created for the purpose of making training routine more stimulating and effective thanks to the versatility of its cutting-edge satellite system. Each satellite is equipped with magnets for a quick attachment to several accessories that can be applied on walls, floor, ceiling, metal surfaces, wall bars or any functional training facility. Reax Lights is controlled using a tablet over WIFI with a dedicated app, the only one available for IOS and Android. In just three simple steps you are ready to start your training session.

Reaxing is the first company in the world to develop a training methodology and a product range exploiting the “Sudden Dynamic Impulse” technology. Unpredictable stimuli train your senses and take training to a much higher level in terms of quality and quantity by increasing sports performance and metabolic activity, improving muscle reaction time and reliability in post-trauma recovery phases, as well as reducing the risk of injuries.

The combat training program adds fun and makes your training sessions more motivating. Challenge your opponent interactively in a workout that will increase your explosive strength and cardiovascular endurance.

REAX LIGHTS

TRAINING

The Reax Lights system is perfect for developing training programs aimed at improving and monitoring sports performances. The analysis of sports performances allows to create and redefine tangible goals for athletes. Reax Lights improves:

1

SPEED AND AGILITY

Movement transaction time and repetition reduce

2

ENDURANCE

The ability of the body to process, supply and use oxygen enhances

3

MUSCLE TONE

An accurate and assessable movement performance results in muscle conditioning improvement

4

COORDINATION AND CONTROL

Coordination and control allow mastering the ability to combine and control a variety of movements.

INDUCTION CHARGING (Optionals)

APP - ANDROID - IOS

MAGNETIC

SPECIFIC OPTIONALS AVAILABLE

TECHNICAL SPECS

The standard light kits are available in packs containing 6 or 12 satellites. There are many accessories available to make your workouts even more fun, effective and interactive. Satellites can be easily and effectively charged in different ways, through a jack or by induction.
